TROLLEY FOR TRANSPORT OF BOBBINS

TROLLEY 60 Tons.

Manoeuvrable trolley for transport of bobbins with capacity of 60 t. The trolley has the possibility to enlarge itself from 2 to 4 meters to accommodate bobbins in all the phases of the processing of the cable from the stranding to the insulation to the expedition. The max. dimension of bobbins are 4500x4000 mm, the ray of curvature is 5 meters. The height from ground of the load plane is 350 mm, this allows the entrance and the exit on the pay-offs , putting down the bobbins directly on the pintles of bridge pay-offs. The trolley is supported by 16 wheels to distribute the load on the ground , it's the only one in its kind and it has 12 turning wheels and 4 fixed and braking wheels with a safety from a pneumatic system mounted on the edge of the trolley with a rechargeable tank of compressed air .
