ProPApp New PTFE Production Process for High Value Applications **TAKE UP FOR TAPES—1000**

A take up for tapes is provided to unroll the product coming from the stretching. The unrolling process will be tangential, controlled by AC motor. The motor may be operated in speed control or torque control for controlling the winding tension of the product.

Main features:

Cops diam. Max 300mm- width 1000mm.

AC motor 0.75 – ratio 1:20.

Max speed 30 mt /min.

In this take up there will be the chance to divide the tape in 4 parts width 250mm by adding removable blades.
