## **ProPApp** New PTFE Production Process for High Value Applications **CUTTING MACHINE**

The machine has the function of pulling the tape with special rubber rollers in a labyrinth which ensures a sufficient grip tow to advance the material gently, creating the necessary effort for the multiple cutting of the tapes. In its advance path a set of multiple blades, settable for each product, will ensure a perfect cutting of the product.

### **Main features:**

- Width rollers 250 mm
- AC motor 0.75 kW ratio 1: 13.4
