ProPApp New PTFE Production Process for High Value Applications **WELDING MACHINES**

P.T.F.E. is known as non-weldeable , non-stickeable material.

We have developed two special welding machines for PTFE that allow to joint together PTFE tapes by the use of a thermo resistance.

The welding machines have also 4 wheels that allows it to be moved in the factory.

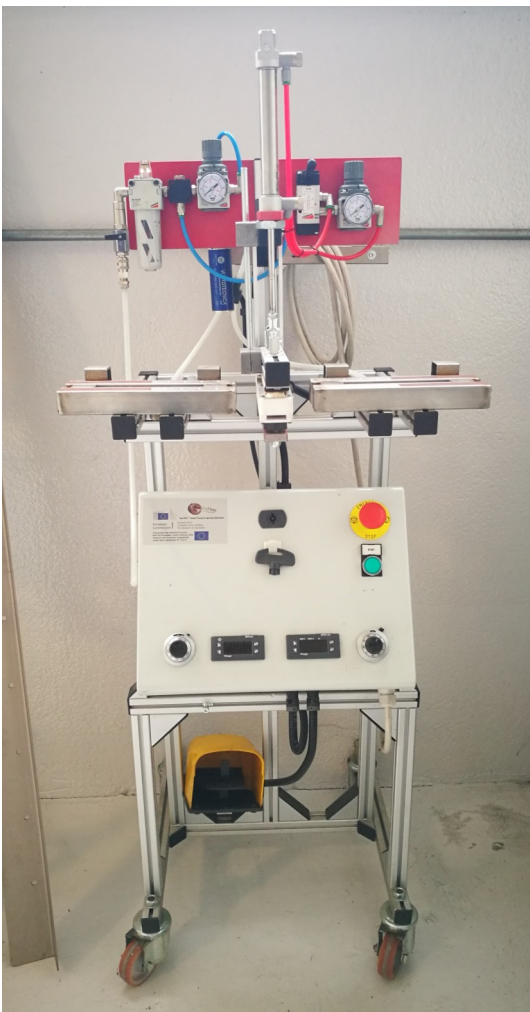

Main features:

Autotransformer 0.1 kW.

Programmable timer.

Command actuated with foot in safety condition.

All the tapes range weldable up to 1000mm lenght
